# PHOTO SAFARI FORMAT

- You do not have to be a photographer to enjoy this trip-a safari is first and foremost an amazing adventure. However, a safari is a natural setting for rapid learning and skill acquisition due to the abundance of photo opportunities. If you are interested in learning how to take better photos, this is the place!
- Our trip format consists of early morning and late afternoon game drives, with daily individual instruction and group didactics/discussions.
- A series of pre-departure zoom lectures will span a wide variety of photographic topics including wildlife composition, lighting, landscapes, portraits, the exposure triangle, what makes a great image, photo equipment, post-processing and more.
- Each safari vehicle is supplied with a walkie-talkie so questions can be posed at any time throughout the trip.
- Guest photo critiques are a fun way to share your artistry and gain valuable feedback from the group.
- We limit safari vehicles to 3 guests each so there's adequate room for you to photography comfortably.

A Tanzanian safari is an incredible experience and we can help you bring home stunning digital memories of the natural beauty you will encounter.
